

ADRIAN DOMINICAN SCHOOL OF EDUCATION

The Adrian Dominican School of Education provides a variety of courses that incorporate distance education technologies and delivery methods.

Courses designated "DL" (Distance Learning) will require fewer face-to-face class sessions than the traditional classes; see schedule for these dates, times, and locations. The distance education courses are listed in two locations in this printed schedule: in individual program offerings and in the section labels "Distance Education Courses."

Any required technologies will be readily available on the main campus for the use of students. However, it is recommended that students have access at home or other convenient location where access is available for extended periods of time.

There are three classifications of distance education courses (course section code of "DL"). Required technologies for each are listed below; you need these skills and access to these technologies in order to register for DL courses:

1. Telecourses/classes - utilize videotaped instruction along with significant printed resources and activities. Videotapes are professionally developed to insure quality instruction with motivated interaction.

Required technologies - videotape player

Prerequisite skills - using a videotape player

2. Videoconference courses - involve active participation in class with students at other locations around the country with an instructor at one of the locations. Live, real-time interaction using special audio/visual equipment, and special communication lines enhance the instruction.

Required technologies - videoconference equipment at Barry or at a convenient location

Prerequisite skills - none

3. Web-based courses - provide enhanced communication and instruction through the use of the Internet and e-mail.

Required technologies -

- PC with Win95 or higher, or MAC OS 9 or higher - either with 64 MB of RAM and at least 1 GB of free hard drive space.
- Internet connection (at least 56 kbps modem recommended)
- Sound card, speakers, printer (recommended), CD-ROM for some courses only
- Internet browser Netscape 4.0 or Internet Explorer 4.0 or higher
- E-mail
- Word processing software (MS Word, or WordPerfect, etc.)

Prerequisite skills

- Word processing (editing, cutting, copying, pasting, printing)

- Internet browsing (searching, accessing websites, entering information)
- E-mail usage
