

2009 Barry University Book Awards
Presented by the Barry University Alumni Association

Each year, the Alumni Association honors students with the Barry University Book Awards. The Book Awards recognize accomplished high school juniors and at the same time, help us raise student awareness of Barry University and advance the University's reputation as a premier learning research institution.

One student from the junior class of each participating high school will be awarded with a book given by the Alumni Association. The student must meet the following criteria:

- Rank in the top tenth of their class
- Participate actively in school and/or community activities
- Possess leadership qualities coupled with a sense of concern and responsibility to others

Recipients are chosen by their school and honored at their school awards banquet.

We would like to take a moment to thank the following schools for choosing to participate in our program this year:
